

Good Food Nation Mapping Workshop

Pre-meeting Worksheet

Important: Please complete and return by date:

In preparing for an initial/early in person Good Food Nation Steering Group event, we advise that all attending are asked to undertake, and submit, this short pre-event activity. This helps all those involved, including those leading the event, to think about, and produce a draft initial list, of all the ongoing and planned work in your Relevant Authority related to the Good Food Nation (Scotland) Act 2022. We advise that you use the first National Good Food Nation Plan, where appropriate, to guide you in this as it outlines how the Scottish Government Good Food Nation team did this across national government during their planning phase.

This initial preparatory activity will help you, and your colleagues, to start thinking about how the National Good Food Nation Outcomes link to, and/or are impacted by, your ongoing work and how aligned these outcomes are to your local priorities. This will provide a valuable baseline upon which to start planning for, and developing, your Local Good Food Nation Plan. Below is the wording from the 1st National Good Food Nation Plan of the **6 National Good Food Nation Outcomes**.

6 National Good Food Nation Outcomes

- | | |
|------------------|--|
| Outcome 1 | Everyone in Scotland eats well with reliable access to safe, nutritious, affordable, sustainable, and age and culturally appropriate food. |
| Outcome 2 | Scotland's food system is sustainable and contributes to a flourishing natural environment. It supports our net zero ambitions, and plays an important role in maintaining and improving animal welfare and in restoring and regenerating biodiversity. |
| Outcome 3 | Scotland's food system encourages a physically and mentally healthy population, leading to a reduction in diet-related conditions. |
| Outcome 4 | Our food and drink sector is prosperous, diverse, innovative, and vital to national and local economic and social wellbeing. It is key to making Scotland food secure and food resilient, and creates and sustains jobs and businesses underpinned by fair work standards. |
| Outcome 5 | Scotland has a thriving food culture with a population who are interested in and educated about good and sustainable food. |
| Outcome 6 | Scotland has a global reputation for high-quality food that we want to continue to grow. Decisions we make in Scotland contribute positively to local and global food systems transformation. We share and learn from best practice internationally. |

Suggested template

On the next page is a suggested template for what you might ask your participants to do in advance of the event.

Please can you individually fill in with as much detail as possible the table overleaf and return it to:

Email:

Date:

We recognise that you will not be in a position, nor are you expected, to be able to fill in activities across all outcomes.

What we ask is that you reflect on, and consider, how your areas of responsibility, teams, work and expertise aligned with, are impacted by. and contribute to, each of the 6 outcomes.

We ask you to spend no more than 2hrs on this pre-work activity.
